Subject Comments on Options paper

I believe Option 6 on pages nine and ten of the Ground Water UVV discussion paper makes the most sense. The tools needed to move forward to address the list of perceived problems are already in place. I would also encourage additional emphasis on increasing the public awareness of the hydrologic relationships that ultimately contribute to the well water that is delivered to the tap.

Thanks and enjoy the day.

If you have any questions, please let me know.
Very truly yours,

Thomas K. Gallagher, P.E.
